

Report on Socio economic survey at Chitlerpul, Block Gauripur, Panchayat Jhagarpar, DistDhubri, conducted by Department of Economics

A Socio Economic Survey has been conducted at Village Chitlerpul, Block Gauripur, Dist. Dhubri (Assam) on 03/10/2018 with the 5th Semester and 3rd Semester Major students. More than 30 students participated in the survey.

The main objectives of the survey are-

1. To make the students more acquainted with the practical details of the theoretical knowledge of the books.
2. To develop creativity – the survey work develops creativity and skills of the students.
3. To study the socio economic conditions of the people of a backward village.
4. To identify the reasons/causes of backwardness of the village.
5. To know the level of poverty and unemployment of the people of the village.
6. To study the impact of various government measures and policies for rural development.
7. To make a critical analysis and get a feedback from the students and teachers.

Here are some of the snapshots of the Survey-
