

FACULTY SEMINAR

FACULTY SEMINAR

The College has constituted Research and Publication Cell to develop research culture among the students and faculty members of the College. Through this Cell the College has been giving cognitive support to the students and the faculties and thereby serving the society through Research, Innovations and Extension. To promote research culture the Cell has taken the initiative to organise one in-house **Faculty Seminar** every month. This has been continuing as regular practice since 2017.

The main objectives of this practice are:

- To promote and develop research culture in the College.
- To motivate the faculty members towards research and to empower them through research.
- To disseminate ideas and information and for that purpose updating of knowledge helps to refresh the knowledge domain of an individual.
- To provide a platform to the faculty members to interact on various topics, which may generate new avenues for research.
